

#Out4MentalHealth

Statewide Task Forces

#Out4MentalHealth is a statewide project that advances mental health equity, provides resources to build capacity in local LGBTQ+ communities, and represents a coalition voice at state-level policy discussions.

Task Forces meet regularly to work collaboratively on mental health policy change. Policy objectives are identified by local LGBTQ mental health stakeholders and based on the needs of their specific community. Task force leads and members are supported with exploring current county system resources and policies, identifying decision makers, and finding opportunities for change.
